

Chairmen's Chapters

Angelo J. DiLorenzo: 2002 - 2003

Dorothy and Angelo Di Lorenzo

On reflection, it's hard to believe that 25 years have passed. It's been a wonderful run that introduced me to many great people, and helped Brooklyn Federal form banking relationships that lasted my working lifetime.

My time in the Chair and on the Board imparted useful knowledge of the insurance market and insurance operations that few community bank executives ever come to know. The added wisdom that I garnered from insights on applied technology, and the experience of getting to know Frank, Eileen, Joey and the FM staff personally and professionally were wonderful bonuses for Dorothy and me.

First Monetary has accomplished extraordinary things year after year, and we are all happy and proud of the success that our company and company President has enjoyed.

Well earned thanks and congratulation are in order on this very special anniversary. We look forward to sharing this wonderful meeting with everyone, and are sure it will be no less super a gathering than the previous 24.
